

AAA Batteries

## AMAZON FIRE TV REMOTE

### PAIRING THE REMOTE TO AMAZON FIRE TV

You must pair your new remote to your Amazon Fire TV. Prior to pairing it, insert the included batteries into the remote. Choose the applicable pairing instructions from the options below.

#### A) THIS IS A REPLACEMENT REMOTE

1. Restart your Amazon FireTV by unplugging the power cable from the power outlet and then plugging it back in. After the Amazon FireTV Home screen completes loading, the white LED on the front of your Amazon Fire TV will go from solid to pulsing when it is ready for pairing. This could take up to a minute.
2. Press and hold the Home button on the new remote for 5-10 seconds to enter discoverable mode. Your new remote should automatically pair with your Amazon Fire TV. You will see an on-screen message when it has successfully paired.

#### B) THIS IS AN ADDITIONAL REMOTE

1. On your new remote, press and hold the Home button for 5 seconds to enter discoverable mode. Your Amazon Fire TV remote will remain in this mode for 5 minutes.
2. On your existing remote, press the Home button to go to the Home screen. You must use your existing remote for all of the following steps.
3. Navigate down to the Settings menu, and then right to the Controllers option. Press the Select button.
4. Select the Amazon Fire TV Remotes option, and then select Add New Remote. Amazon Fire TV will search for discoverable remotes, and display them in a list.
5. Select the new remote, named Amazon Fire TV Remote. You will see an on-screen message when it has been successfully paired.

## TIPS

- If the new remote does not connect, make sure that the batteries are properly installed.
- If the new remote does not appear in the list of devices to pair, then press the Home button on the new remote for 5 seconds to enter the discoverable mode.
- Always replace dead batteries with new 1.5V alkaline or 1.2V NiMH rechargeable batteries.
