

T

Telephone

There are 2 cordless telephones in the home. One in the kitchen by the slider door and the other in the Den upstairs by the Television.

Local calls are available from these phones free of charge. For long distance or international calls we recommend you either buy a calling card from Publix, Walgreens or CVS which enables you to dial an access code from these phones against your credit or make use of Voice over Internet services such as SKYPE using the Wifi provided.

To answer a ringing phone simply press the TALK button and the OFF button to terminate the call.

Likewise to make a call simply dial the number then press the TALK button and the phone will dial.
